Your dates. Your unknowns. Your next three actions.

Print this blank plan and write your own answers. Keep it with you; nothing is submitted or saved online. Leave unknowns visible. A checked item records your progress, not official approval.

My stage: Choosing housing / Planning a visit / Have an address / Arriving soon

Expected arrival	Confirmed right to occupy	First fixed commitment
Date or unknown	Date, conditions or unknown	Date and purpose; no private details

Candidate property or “not chosen yet”: _____

1. What could change the decision?

Choose three unknowns that matter most. For a property comparison, use the existing Belton Address Check; record its unresolved answers here.

Unknown / why it matters	Responsible source / date checked	Next action / what would settle it
1.		
2.		
3.		

2. Rehearse a change of plan

If the home is unavailable when I arrive, what changes? Check actual availability, quotes and cancellation terms. Separate refundable deposits from spending.

Lodging / belongings / delivery

Connectivity / work / pets / other

3. Choose the next three actions

Action / person or organization to check with	My next check date
1.	
2.	
3.	

For the home-search question, ask Taylor about your move. Share a rough timeframe and unresolved question. Keep IDs, children's records, orders, financial documents and utility credentials out of a general contact message.

Requested is not yet confirmed.

Verify the actual provider, district and transaction arrangements. A mailing address, map result or scheduled closing appointment does not settle every step.

Use words: **known / needs confirmation / not applicable**. Record who confirmed an answer and when. Do not include account numbers or sensitive documents.

Services for this property

Service	Provider / requested date	Actual confirmation / checked when	Access needed / next action
Water			
Wastewater			
Trash / recycling			
Electricity			
Internet / other			

School steps, if relevant

Confirm full address, district, grade and intended year with the responsible district. A lookup is not enrollment or transfer approval. Record the route and remaining step, not a child's identity.

Assignment / documents / start arrangement: what remains?

Possession, access and the first required trip

Who confirms possession, keys and access?

Exact destination / entrance / parking

Conditions or changes still unresolved

Intended time / route test still needed

For a visit, choose a stop that answers a real question. Record its date/time, observation and next question. An initial reporting location can differ from a daily workplace.

Official starting points and existing guidance
